

ArcView is designed with an intuitive Windows user interface<sup>3</sup> and includes Visual Basic for Applications for customization. ArcView consists of three desktop applications: ArcMap, ArcCatalog, and ArcToolbox. ArcMap provides data display, query, and analysis. ArcCatalog provides geographic and tabular data management, creation, and organization. ArcToolbox provides basic data conversion. Using these three applications together, you can perform any GIS task, including mapping, data management, geographic analysis, data editing, and geoprocessing. **Users will get any updates free of charge for the first year!**
